Main Services

1). **Permanent Manned Security (armed and unarmed):** we provide both armed and unarmed security services as per the requirements of every client. All our security officers have been professionally trained by well-reputed certified training institutes, and strictly follow proper protocols, use of force, defensive techniques, safe use of firearms and non-lethal weapons, emergency training, and other critical skills for keeping individuals and assets safe.

2). **Disaster Response and Emergency:** our security officers are trained to respond promptly to emergencies like an accident, fire, natural calamities, theft, violence, strike, health emergency, etc. They will also act as the first emergency response team in case of medical emergencies, as they've all undergone CPR and First-Aid training.

3). **Control Room Monitoring:** our officers are trained to provide 24/7 cover from the CCTV room of our clients (provided the client has one on their property). In case of any security breach event, our operatives from the CCTV room shall alert the onsite security officers to take corrective measures.

4). **Private Security:** we have the finest of professional private security guards highly trained to provide armed and unarmed security services and expertise to private and public clients across the country. They can further go ahead to provide advanced private security services if requested by any client.

5). **Armed Security:** our armed security officers are professionally trained and authorized to carry arms with valid licenses. They are fully equipped to secure high-value and high-risk businesses that are more vulnerable to armed attacks and cannot be covered by local police effectively. Our security forces undergo weapon training which is provided by ex-cops, veterans, etc.

6). **Special Event Security:** our expertise in event security management is very reliable and trustworthy because of our well-planned security measures before the event. We gather every minute details of the event and then plug in every loophole that can be a potential threat to the event.

7). **Security Patrols:** our security officers are available for round-the-clock security patrol operations to enhance your safety and reduce the risk of theft and vandalism. Our security patrol check service includes external and internal property checks, staff welfare checks, visitor and staff escorts, and more.

8). **Security Reception/Concierge Service:** our professional reception and concierge team is always available to provide you with top-notch security services at your property's front desk or any other locations while keeping in mind a high level of customer service and satisfaction at all times.

9). **Transportation Services:** our security officers are well trained to integrate themselves with your logistic convoy and provide a high level of security to your valuable goods thereby protecting them from potential thefts. 24/7 communication is ensured with all our clients during the whole transit process.

10). **Segway-golfcart-bike-t3 Patrol:** apart from car patrol, we also provide patrolling by Bikes and Segway golf cart. It's a very efficient and eco-friendly solution especially when you are patrolling inside the campus or a shopping mall.

11). **Construction Sites Security Services:** construction sites are vulnerable to several threats and damages (such as theft, certain emergencies, fire, illegal trespass, vandalism, etc.) that can lead to hindrance of projects completion, financial losses, and even loss of lives. Our security officers are here to prevent any of that from happening.

12). **Loss Prevention:** theft by customers or clients, and employees, is becoming more rampant than expected in the country's retail industry. Our goal is to help your business reduce the threats of product loss to the lowest, and also enable the effective positive control of your products or assets.

13). **Executive Security:** whether you are a VIP, celebrity, executive, or any individual susceptible to elevated personal risk due to your status, job, wealth, geographical location, or associations, we have the perfect armed and unarmed highly skilled, and trained security officers who are always ready to give you close protection whenever you need it.

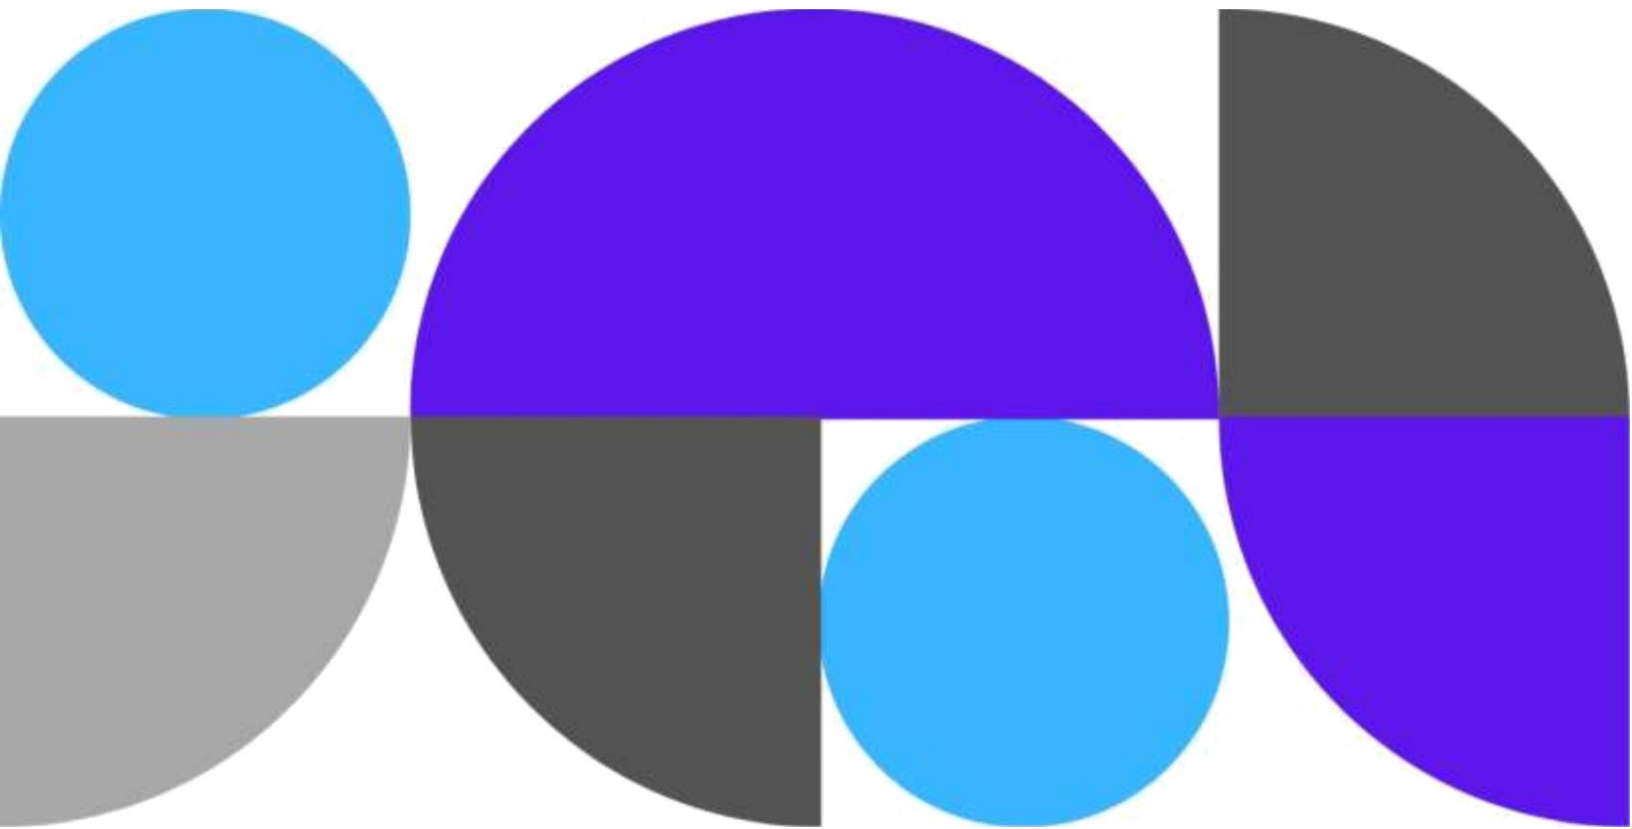

Professional Services

- 1). **Corporate Training:** We also specialize in providing security officers with First responder training and disaster planning, workplace violence & security awareness, conducting internal investigations, and corporate fraud & theft prevention.
- 2). **Access Control:** control who has access to your company's premises and data, with the aid of our comprehensive access control system. We provide a range of access control products and solutions including; access control readers & cards, door entry systems, integrated access control, smart cards & biometrics, identity management systems, and visitor management systems.
- 3). **Video Surveillance:** we design and implement video surveillance technology for our clients, including; camera installations, video alarm verification, video analytics, video storage systems, and integrated video storage systems.
- 4). **Fire Detection:** let's help you reduce the risk of potential damage from fire, with our best-in-class-compliant fire detection systems. Our standards and strategies are designed to help your organization eliminate inconsistencies and create efficiencies in fire security protection, management, monitoring, and response plans.
- 5). **Intercom Communications:** when it comes to security, the importance of effective communication between locations cannot be overemphasized, and we're here to help you perfect that. We create customized world-class Intercom solutions for our clients, including; Audio & Video Intercom, Single Door to Multi-Location, and Enterprise Level Networks.
- 6). **Intrusion Detection:** effective intrusion detection security solutions aid in preventing unauthorized entry, and that's what we offer. Our design and implementation strategy ensure easy installations of intrusion detection equipment with intelligent sensitivity, thus providing complete reliability to our customers.

MEET WITH US
